About

Morocco 2026

As part of the MAIDSS 2026 Conference, the **InnovAI Hackathon** aims to foster innovation, encourage interdisciplinary collaboration, and develop practical solutions to major societal challenges using **Artificial Intelligence (AI)** and **Data Science (DS)**.

The event brings together **students, researchers, developers, start-ups, and professionals** interested in applying AI to areas such as:

- Healthcare
- Food Security
- Agriculture
- Energy
- Fraud Detection
- Environmental Protection

The hackathon will unfold in **two phases**, guided by a panel of expert juries.
